

NOTE

For clean up:

- You will need the high heat range and excellent extraction abilities of a truck mount steam cleaning system.
- Proper sanitizers and antibacterial.
- Proper protocol and distancing.
- Qualified, knowledgeable cleaning staff.
- No dust or particulate moving around all vent, duct, carpet, upholstery contaminants removed to van outside.

For some clients, we recommend two or three separate appointments.

For example:

- Bedrooms: 1st
- Living room, dining room + hall: 2nd
- Downstairs, carpeted rooms: 3rd

When doing separate appointments, safe distancing can easily be achieved.
